

# Ega Gofur Triwahana

## Frontend Engineer

I am a frontend engineer intern at DOT Indonesia. I have experience as a junior web developer. I have an interest in having a career as a frontend engineer (typescript). I'm a fast learner and self-taught, and I've learned a lot of new technologies in recent years on my own from the Internet.

📍 Malang Regency, East Java, Indonesia

## Education

### SMK NEGERI 1 KEPANJEN

Software engineering students

2021 - 2024

## Skills

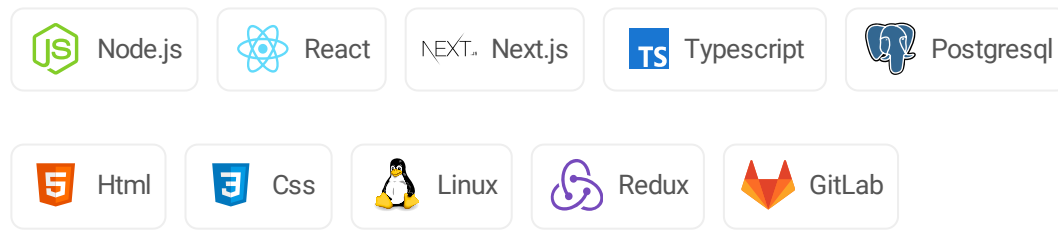

- Teamwork
- Agile methodologies
- Clean Code
- Problem solving
- Discipline
- Solid principle

## Languages

- Indonesia - Native
- English - Beginner
- Javanese - Native

## Tech Stack

---

## Projects

---

### Pama Tax System

I build using react.js. This website is my first project during my internship at DOT Indonesia. Here, the tech stack used is typescript, react.js, react query, react useForm, Ant Design, and inertia.js. why inertia.js? because this project uses a monolithic architecture where the frontend and backend are in one project.

### Kanesa code

I built a school organization website called Kanesa Code. built with html, css, and js. This website provides education for students who are interested in the field of web development.

See my other projects on  [GitHub](#)

### JQuiz

JQuiz is a quiz application that i build using react js and firebase. This project is my first project using firebase. I use firebase for authentication, database, and hosting

### Social Profile

Social Profile is a website that i build using react.js. This website is my first project using react.js. I build this website to learn react.js. I use react.js, react router.
